

CALL FOR PAPERS

General Chairs

Silvio Jamil F. Guimarães
PUC Minas - Brazil
sjamil@pucminas.br
Hugo Bastos de Paula
PUC Minas - Brazil
hugo@pucminas.br

Co-organizing chairs

Flávio Luis Cardeal Pádua
CEFET/MG - Brazil
Cardeal@lsi.cefetmg.br

Program Chairs

Alexandre Xavier Falcão
UNICAMP - Brazil
afalcao@ic.unicamp.br
Hélio Côrtes Vieira Lopes
PUC Rio
lopes@mat.puc-rio.br

Tutorial

Agma Juci Machado Traina
USP - Brazil
agma@icmc.usp.br
Marcelo de Andrade Dreux
PUC Rio - Brazil
dreux@mec.puc-rio.br

Poster

Luiz Marcos Garcia Goncalves
UFRN - Brazil
lmarcos@dca.ufrn.br
Wu Shin-Ting
UNICAMP - Brazil
ting@dca.fee.unicamp.br

Workshop of Undergraduate Work

Ricardo da Silva Torres
UNICAMP - Brazil
rtorres@ic.unicamp.br
Thomas Lewiner
PUC Rio - Brazil
tomlew@mat.puc-rio.br

Workshop of Theses and Dissertations

Arnaldo de Albuquerque Araújo
UFMG - Brazil
arnaldo@dcc.ufmg.br
João Luiz Dihl Comba
UFRGS - Brazil
comba@inf.ufrgs.br

Video Festival

Soraia Raupp Musse
UNISINOS - Brazil
soraia@exatas.unisinos.br
Esteban Walter Gonzalez Clua
UFF - Brazil
esteban@inf.puc-rio.br

BELO HORIZONTE - MG - BRAZIL

October 7-10, 2007

The *Brazilian Symposium on Computer Graphics and Image Processing*, SIBGRAPI, will be held October 7-10, 2007, in Belo Horizonte, Minas Gerais. SIBGRAPI is the most important Brazilian meeting in Computer Graphics, Image Processing, and Computer Vision. Started in 1988 with the sponsorship of the Brazilian Computer Society, this will be its 20th edition. IEEE CS Press has published proceedings of SIBGRAPI since 1997, and its acceptance rate is about 30% of submitted papers. We cordially invite you to participate by submitting your work in all areas of Computer Graphics, Image Processing and Computer Vision, including but not limited to the following topics:

AI in Computer Vision	Graphics Hardware	Non-Photorealistic Rendering
Animation and Simulation	Image Analysis	Pattern Recognition
Bioinformatics Imaging	Image Compression	Real-Time Imaging
Biometry	Image Filtering	Real-Time Rendering
Collaborative Virtual Reality	Image Registration	Remote Sensing
Computational Geometry	Image Restoration	Scientific Visualization
Computer Vision and Robotics	Image Retrieval	Simplification Techniques
Digital Video	Image Segmentation	Surface Extraction
Digital Topology	Image Synthesis	3D Imaging
Document Analysis	Large Data Sets	Visibility Algorithms
Games	Mathematical Morphology	Visual Data Mining
Geographical Databases	Medical Imaging and Visualization	Visual Learning
Geometric & Solid Modeling	Multimedia	Volumetric Rendering
Graphical Interfaces	Multiresolution Techniques	Applications

Contributions should be in one of the following categories:

- **Full Papers:** scheduled as oral presentations and published in the Proceedings as two-column, 8-page papers, in English. Submission will be electronic. IEEE CS Press will publish proceedings and selected papers will be published in specialized journals.
- **Technical Posters:** special session and published as two-column, 2-page papers, in English.
- **Tutorials:** about classical or timely topics, from elementary to advanced, consisting of three to six hours of lectures with printed notes (20-30 pages), in Portuguese or English.
- **Workshop of Theses and Dissertations:** PhD and MSc students may submit their ongoing work in English or Portuguese, to be evaluated for presentation. We expect this to be an unique opportunity for graduate students to receive important feedback on their work from the scientific community.
- **Workshop of Undergraduate Work:** undergraduate students are encouraged to submit the results of their scientific works in English or Portuguese, to be evaluated for presentation.
- **Video Festival:** special session of computer graphics or digital video processing techniques.

IMPORTANT DATES

Full Papers	May 07, 2007
Tutorial Proposals	May 14, 2007
Workshop of Theses and Dissertations	July 02, 2007
Workshop of Undergraduate Work	July 02, 2007
Technical Posters	July 11, 2007
Video Festival	August 20, 2007
